## Page

- 1 Five Areas of Vital Change** **Dr. Edward J. Hoffman**  
NASA's PPMI program manager offers an overview of the Project Management Shared Experience Program at Hagerstown, Maryland.
- 2 Major Space Policy Issues** **Dr. John Logsdon**  
The director of the Space Policy Institute at the George Washington University says space exploration should not be done for political purposes but on its own merits to bring stability to the program.
- 3 The New Congress** **Nick Fuhrman**  
A professional staff member of the House Subcommittee on Space and Aeronautics predicts the future of space missions in the post-Cold War era, stressing spin-offs and "spin-ons."
- 4 Reinventing NASA** **Alan Ladwig**  
NASA's Associate Administrator of the Office of Policy and Plans describes several reviews in progress to explore options for restructuring the Agency.
- 6 NASA's Evolving Strategy** **Gary Steinberg**  
The director for Strategic Management at NASA explains the Agency's Strategic Plan and the planning process as a new way of doing business.
- 9 Five Enterprise Strategic Plans** **Enterprise Representatives**
- |    |   |                                   |
|----|---|-----------------------------------|
| 9  | 1. Human Exploration and Development of Space | Stephen Cook and Stephan Fogleman |
| 10 | 2. Aeronautics                                | Jay Henn                          |
| 11 | 3. Mission to Planet Earth                    | Doug Norton                       |
| 12 | 4. Space Science                              | Mary Kicza                        |
| 13 | 5. Space Technology                           | Earl Van Landingham               |
- 14 Innovations in Managing Complexity** **Presenters**
- |    |  |                             |
|----|--|-----------------------------|
| 14 | 1. Integrated Product Teams: High Speed Aircraft         | Wallace C. Sawyer           |
| 15 | 2. Integrated Product Teams: International Space Station | Lyn Gordon-Winkler          |
| 15 | 3. Advanced Concepts: Virtual Research Center            | John Mankins                |
| 16 | 4. Systems Engineering: WES 21                           | Dona M. Lee                 |
| 16 | 5. Rapid Prototyping: Single Stage to Orbit              | Bill Gaubatz                |
| 17 | 6. Project Management: Planning NMI 7120                 | Ernie Hahne and Susie Mauzy |

<b>18</b>	<b>International Partnerships</b>	<b>Presenters</b>
18	The Chunnel Project: Challenges and Lessons Learned	John Noulton and John Neerhout
19	Russian-American Cooperation in Space	Jeffrey Manber
<b>21</b>	<b>Industry/Interagency Collaboration</b>	<b>Presenters</b>
21	Clementine—A Prototype	Stewart Nozette
22	ARPA's Innovative Awards	Tim Arnold
22	Intelligent Highway Systems	John MacGowan
23	Rapid Prototyping—SSTO	Bill Gaubatz
24	Air Force Lessons Learned	Chris Andrews
<b>25</b>	<b>Technology Transfer</b>	<b>Courtney Stadd</b>
	A managing partner of Global Ventures, former Deputy Associate Administrator for NASA's Advanced Concepts and Technology and former senior director of the White House National Space Council, shares his digital-age insights.	
27	American Competitiveness	Tom Walters
28	Delivering Accountability	Molly Macauley
29	NASA's Commercial Technology Program	Kevin Barquinero
30	The Future of Technology Policy	Steve Moran
<b>31</b>	<b>Project Management Development Process (PMDP)</b>	<b>Dr. Edward J. Hoffman</b>
	The PPMI program manager explains the project management development process and previews the new requirements for participants in each of the four levels.	
<b>35</b>	<b>Resources</b>	<b>Susan Manakul</b>
	Sourcelists on each major conference topic by category for further reading and research.	

SP-6101(10) *Issues in NASA Program and Project Management* is tenth in a series from NASA's Program and Project Management Initiative. This series is collected and edited by Dr. Edward J. Hoffman with Dr. William M. Lawbaugh. Statements and opinions are those of the authors and do not represent official policy of NASA or the U.S. Government. Useful and enlightening material is welcome, and diversity of ideas is encouraged.

*Inquiries should be directed to Dr. Edward J. Hoffman, Program Manager, Office of Training and Development, Code FT, NASA Headquarters, Washington, DC 20546-0001.*
